NAICS Classification: Plastics Product Manufacturing

Executives at this Location

Janet Martin - President

Overview:

Custom Plastic Forming produces a variety of custom thin-gauge and heavy-gauge plastic components. Our capabilities begin with design and engineering to development of prototypes, tool-making, and manufacture of components, including assembly. We do more than just produce thermoformed products. We look at the entire manufacturing process, from design to delivery, and provide solutions and services that maximize profits to our clients' bottom line.
